

CORPORATE BACKGROUND

The founder members of the Novitium Association realised after several years of collaborating on various projects, that together they could offer dynamic and innovative ICT solutions to their customers. The association was subsequently established in 2006. Each of the founding companies is a specialist in its field, with expertise that complement the other members. Collectively they now offer end-to-end solutions from conceptualisation through implementation to operational support.

The founder members of the Novitium Association are:

- Novitium Q-Sulting (Pty) Ltd
- Novitium Technologies (Pty) Ltd
- Novidatum (Pty) Ltd
- Trentech System Engineering (Pty) Ltd
- Jacqrin Systems Solutions (Pty) Ltd

VISION

To be a best-of-class, respected entity through which the associated companies can optimally apply their skills and capabilities to the advantage of all stakeholders.

MISSION

To provide single-contact, cost-effective, end-to-end ICT solutions that will enable our clients to be more efficient and profitable.

THE NOVITIUM ASSOCIATION ADVANTAGE

Why the Novitium Association? Because together we will provide the client with effective solutions to their requirements that are supported by the powerful combinations of critical strengths that set us apart from our competition:

Extensive industry and functional expertise: The staff of the associated companies have years of experience and knowledge across a wide range of industries and business functions. We therefore speak our client's language and understand their challenges and concerns.

Trust: The management and staff of the associated companies actively develop strong and long-lasting relationships of trust and confidence with our clients.

Technical excellence: As an association we can apply and combine the full spectrum of technologies to create optimal yet cost-effective solutions for our clients.

Team-player-people: Attracting the best professionals enables us to take on the most challenging assignments, whilst the most challenging assignments help us retain the best people.

The total solution: Novitium Association with its associated companies provide a range of services from strategy conceptualization to systems development, implementation, integration, testing, training and support.

WHERE ARE WE?
